

Volume 3, Number 4

December, 2010

ISSN 1983-4195

Contents

Influence of curing procedures and porosity in the flexural resistance of concretes for paving
T.C. CERVO, J.T. BALBO, M. BADAWY and A.A. SEVERI

Tactile-floor tile hydraulic with addition residue improvement dimension stones
A. S. REIS and F. A. TRISTÃO

From prescription to performance: international trends on concrete specifications and the Brazilian perspective
J. TANESI, M. G. DA SILVA, V. GOMES and G. CAMARINI

The effect of high temperatures on concrete compression strength, tensile strength and deformation modulus
A. A. A. DE SOUZA and A. L. MORENO JR

Numerical modeling of steel-concrete composite beams
L. R. MARCONCIN, R. D. MACHADO and M. A. MARINO

Assessment of the influence of the type of aggregates and rehydration on concrete submitted to high temperatures
A. A. A. DE SOUZA and A. L. MORENO JR

Utilization of the ultrasonic method to evaluate the properties of high performance concrete
B. M. TORALLES-CARBONARI, S. H. CAVALARO, J. C. MENDES CASTANHA, P. A. G. GUACELLI and C. CATISTE SILVA
