
Aims and Scope

Aims and Scope

The IBRACON Structures and Materials Journal (in Portuguese: Revista IBRACON de Estruturas e Materiais) is a technical and scientific divulgation vehicle of IBRACON (Brazilian Concrete Institute), published every two months. Each issue has 12 to 15 articles and, possibly, a technical note and/or a technical discussion regarding a previously published paper. All contributions are reviewed and approved by professionals with recognized scientific competence in the area. The IBRACON Structures and Materials Journal is an open access Journal, free of charges for authors and readers.

Objectives

The IBRACON Structures and Materials Journal's main objectives are:

- Present current developments and advances in concrete structures and materials.
- Make possible the better understanding of structural concrete behavior, supplying subsidies for a continuous interaction among researchers, producers, and users.
- Stimulate the development of scientific and technological research in the areas of concrete structures and materials, through papers peer-reviewed by a qualified Editorial Board.
- Promote the interaction among researchers, constructors and users of concrete structures and materials and the development of Civil Construction.
- Provide a vehicle of communication of high technical level for researchers and designers in the areas of concrete structures and materials.

Submission Procedure

The procedure to submit and revise the contributions, as well as the formats, are detailed in the Journal Website (ismj.org).

The papers and the technical notes are revised by at least two reviewers indicated by the editors. Discussions and replies are accepted for publication after a review by the editors and at least one member of the Editorial Board. In case of disagreement between the reviewer and the authors, the contribution will be sent to a specialist in the area, not necessarily linked to the Editorial Board. Conflict of interests is carefully handled by the Editors.

Contribution Types

The Journal will publish original papers, short technical notes, and paper discussions. Original papers will be accepted if they are in accordance with the objectives of the Journal and present quality of information and presentation. A technical note is a brief manuscript. It may present a new feature of research, development, or technological application in the areas of Concrete Structures and Materials, and Civil Construction. This is an opportunity to be used by industries, companies, universities, institutions of research, researchers, and professionals willing to promote their works and products under development.

A discussion is received no later than 3 months after the publication of the paper or technical note. The discussion must be limited to the topic addressed in the published paper and must not be offensive. The right of reply is granted to the Authors. The discussions and the replies are published in the subsequent issues of the Journal.

The submission file should be in accordance with the paper template available at the Journal Website. It is recommended that the length of the papers does not exceed 25 pages. Where available, URLs for the references should be provided.

The IBRACON Structures and Materials Journal will conduct the review process for manuscripts submitted in English. Titles, abstracts, and keywords are presented in English, and in Portuguese or Spanish. Articles and technical notes are peer-reviewed and only published after approval of the reviewers and the Editorial Board.

Once accepted, an article is typeset according to the journal layout. The author will be required to review and approve the galleys before publishing. At this stage only typesetting errors will be considered.

Internet Access

The IBRACON Structures and Materials Journal Webpage is available at <http://ismj.org>.

Sponsors

The funds for the maintenance of the Journal are currently obtained from the IBRACON. The Journal is not supposed to be maintained with funds from private sponsorship, which could diminish the credit of the publications.
