Correlation Curves to Characterize Concretes Used in Rio de Janeiro by Means of Non-destructive Tests

M. D. MACHADO, L. C. D. SHEHATA and I. A. E. M. SHEHATA

Comparative Study of Longitudinal Shear Design Criteria for Composite Slabs

J. M. CALIXTO, G. BRENDOLAN and R. PIMENTA

Influence of steel fibers and mineral additions on cracking behavior of reinforced concrete tension members

L. A. OLIVEIRA JÚNIOR, D. L. ARAÚJO, R. D. TOLÊDO FILHO, E. M. R. FAIRBAIRN and M. A. S. ANDRADE

Smearred Crack Models for Reinforced Concrete Beams by Finite Element Method

R.C.G. MENIN, L.M. TRAUTWEIN and T.N. BITTENCOURT

Energy saving cement production by grain size optimisation of the raw meal

B. SIMONS
